

PRODUCT INFORMATION

Artisana[®] multiheight retaining and freestanding wall systems

Featuring a classic, hand-worked stone appearance, the Artisana[®] wall system provides elegance for residential or commercial settings. The attractive multiheight design and rich variegated colors offer an alternative look to traditional retaining wall units.

The design of these easy-to-use products allows for sweeping curves. The retaining wall system can be used in applications ranging from curves to corners, terraces to raised patios, steps to columns.

Complementary accessories and freestanding wall products complete the system. The freestanding wall blocks can be used for seating walls, courtyards and patio walls.

A versatile product, Artisana units can be used in a combination of 6- and 3-inch-high units, or with 6- or 3-inch-high units alone.

Artisana[®] 6" multipiece freestanding wall system

Artisana® 6" multipiece retaining and freestanding wall systems

Artisana® 3" multipiece retaining wall system

Retaining wall system

- Can be used to build gravity walls up to 3 feet high, including buried course, but excluding the cap.* Taller walls can be built using geosynthetic reinforcement or the Anchorplex™ retaining wall system when designed by a qualified engineer.
- Minimum outside radius, measured on the top course to the front of the units: 4 feet**
- Minimum inside radius, measured on the base course to the front of the units: 8 feet**

Freestanding wall system

- Can be used to build walls up to 3 feet high, including buried course, but excluding the cap
- Minimum radius using all three units: 4 feet**

*This height assumes level backfill and clean, compacted sand or gravel and no surcharge.
 **May vary depending on the installation pattern.

Artisana[®] multiheight freestanding wall system

No pins. No mortar.
No misalignments.

Rear-lip block,
invented by Anchor,
makes installation
fast and accurate.
Anchor[™] - the original
rear-lip product!
