Residential & Commercial

NEBRASKA BUILT

NEBCO, Inc. has been part of Nebraska and the region's history for over a century. NEBCO's operations span the state of Nebraska and supply the construction industry with materials used to build buildings, streets, and highways. That supply was shaped by locally operated concrete block manufacturing plants. Those operations have since come together to form Watkins.

Today, Watkins operates in four locations across Nebraska; Omaha, Lincoln, Grand Island, and Kearney. While each location brings its own history and local knowledge, they now work as one Watkins team with shared standards, products, and service.

Watkins manufactures over 400 items including standard concrete masonry units, segmental retaining wall components, and architectural concrete masonry units. 98% of the aggregates used to make these products are sourced within Nebraska. Other product lines include concrete and clay pavers, clay face brick, manufactured stone veneer, natural stone veneer, caulking, sealants, EIFS, stucco, and a variety of accessory products for both the residential and commercial construction and landscaping markets.

The team at Watkins takes great pride in producing the highest quality products, sourced right here in our own backyard. And for these reasons, we are Nebraska Built.

DESIGNING YOUR PROJECT JUST GOT **A WHOLE LOT EASIER!**

The Watkins Design Studio offers a 3D design experience that will make your next project easier than ever. Whether you have a vision or need a little guidance, our expert design staff will build your project in a digital space, allowing you to envision the final product before work even begins!

01 DESIGN

Our expert design staff will work closely with you to build a 3D design concept of your project. Once the design has been finalized, a final meeting here in our showroom is recommended to make your material selections.

02 INSTALL

Armed with the design you love, it's time to get installation quotes. Although we do not install the work ourselves, we can help you find the right contractor for the job.

03 ENJOY

The dust has settled, and you now have the beautiful backyard you have always dreamed of! There is nothing left but to enjoy the space with friends and family and make new memories that will last a lifetime!

WARRANTY INFORMATION

ANCHOR WALL SYSTEM LIMITED WARRANTY

Wall units sold under the “Anchor Wall Systems” brand are made by independent manufacturers according to specifications set by Anchor Wall Systems, Inc. (“AWS”). This limited warranty is the only warranty from AWS or its independent manufacturers applicable to these products.

For purposes of this limited warranty, the term “AWS Wall Units” encompasses: (1) the concrete units promoted and sold under the “Anchor Wall Systems” brand for use in the construction of earth - retaining walls or structures; (2) the concrete units promoted and sold under the “Anchor Wall Systems” brand for use in the construction of free-standing walls; (3) the base units, cap units, corner units, and column units promoted and sold under the “Anchor Wall Systems” brand; (4) AWS’s Landings™ step units; and (5) the concrete edger units promoted and sold under the “Anchor Wall Systems” brand .

AWS and its independent manufacturers warrant that, subject to the exceptions noted below, AWS Wall Units conform to the ASTM Standard Specification for Segmental Retaining Wall Units (ASTM C1372) at the time of their delivery to the original job (installation) site.

If AWS Wall Units do not conform to ASTM C1372 at that time, then, subject to the exceptions noted below, AWS and its independent who made the non-conforming units will supply replacement AWS Wall Units of the same style to the original installation site at no charge for the replacement AWS Wall Units or for their delivery.

Please note the following:

- Because AWS Wall Units are manufactured using mined materials, there may be color variations in these products from the same manufacturing run as well as in products from different runs. In addition, an efflorescence of whitish color may blossom from time-to-time on the surfaces of all concrete products, including AWS Wall Units, as a result of naturally occurring chemical reactions between them and their surrounding environment. Accordingly, no guarantee of color shades or freedom from efflorescence is made or implied.
- The warranty is voided if AWS Wall Units have been damaged due to handling, wall design, installation, contact with deleterious chemicals (such as deicers), earth shifts, or Acts of God.
- The only liability of AWS and its independent manufacturers for any breach of this warranty is to supply replacement AWS Wall Units to the original installation site, at no charge for the replacement units or for their delivery. Under no circumstances does AWS or its independent manufacturers have any obligation to remove nonconforming AWS Wall Units or to install the replacement units.
- If AWS and its independent manufacturers are unable or fail to supply replacement units when obligated to do so, their entire liability is limited to refunding the purchase price of the units.
- These remedies are the purchaser’s exclusive remedies against AWS or its independent manufacturers for any breach of warranty concerning AWS Wall Units and these remedies will not be deemed to have failed of their essential purpose so long as AWS and its independent manufacturers are willing and able to replace any nonconforming products or to refund the purchase price.

All requests for warranty service should be directed to: Anchor Wall Systems, Inc., Attn: Warranty Service, 5909 Baker Road, Suite 550, Minneapolis, MN 55345.

FOR TRANSACTIONS IN WHICH THE PRODUCTS ARE NOT CONSUMER PRODUCTS WITHIN THE MEANING OF THE MAGNUSON-MOSS WARRANTY ACT, AWS AND ITS INDEPENDENT MANUFACTURERS DISCLAIM ANY AND ALL IMPLIED WARRANTIES, INCLUDING ANY IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS, TO THE FULLEST EXTENT ALLOWED BY LAW. IN ALL OTHER TRANSACTIONS, THE DURATION OF ANY LIMITED WARRANTIES IS LIMITED TO THE FULLEST EXTENT ALLOWED BY LAW.

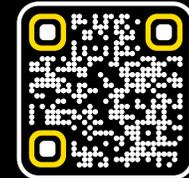

UNDER NO CIRCUMSTANCES ARE AWS OR ITS INDEPENDENT MANUFACTURERS RESPONSIBLE FOR ANY SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES (including, without limitation, the cost to remove nonconforming AWS Wall Units or to install replacement AWS Wall Units, loss of profits, harm to goodwill or business reputation, or delay damages) whether such claims are based in contract, warranty, negligence or strict tort. This exclusion applies even if the remedy stated above is deemed to have failed of its essential purpose.

Some states do not allow limitations on how long an implied warranty lasts or the exclusion or limitation of incidental or consequential damages, so the above limitations or exclusions may not apply to you.

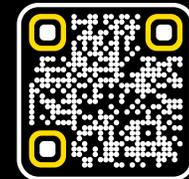

Unless modified in a writing signed by an officer of AWS, the limited warranty stated above is the only express warranty (whether written or oral) from AWS or its independent manufacturers that is applicable to AWS Wall Units and no one is authorized to otherwise modify or expand this warranty. The validity and interpretation of this warranty are governed by the internal laws (and not the law of conflicts) of the State of Minnesota.

This warranty gives you specific legal rights, and you also may have other rights that vary from state to state.
